

Regarding Indiana's Telephone Privacy law - this has been the one of the best things that has happened as far as I am concerned. We used to get as many as 8-10 solicitation calls per evening - and also on holidays, including Easter, Thanksgiving! Hard to believe but true. Since my name and phone # has been on this list, I have received only a handful of calls - in 6 months. And then when I mention that my name is on this list, they very politely say they will remove my name from their calling list. Please do not change this law. Thank you very much.
